What we look for:

We prioritize companies whose high-growth products have an enduring sustainable advantage over competitors, that have traction with customers, and that have teams with a proven track record in their industry. As we have limited capital and a high return expectation, we are looking to back our State's most exceptional companies.

Why Work With Us:

- We're local.
- We are one of few early stage investors based in the State of Nevada, we focus exclusively on our state's entrepreneurs, and work with other investors inside the state and beyond.
- We have Unique Networks. Battle Born Venture's networks of fellow investors, academics and industry contacts are especially broad by dint of its relationships with GOED and Nevada SBDC, as well as through its investment manager's extensive networks.
- We Add Value. From sourcing incremental management to making customer introductions, we're focused on adding value to our portfolio companies that goes well beyond our financial investment.

What We Don't Fund:

Given our mandate, we cannot invest in: grants, donations or sponsorships of any kind, the operations of mentoring programs, non-profits, research projects or prototypes, projects managed by state agencies or regional development agencies.
